Within Diversity Friendship Sparks
Guler Altunbas

Judges Comments:

"This work was instantly appealing for the very decorative patterns on the animals, which I think are beautiful. Of course there is also a beautiful message as well, of the harmony between usual adversaries. I think the negative space, or the blue area is a very successful device to draw our attention to the animals and balances out the heavily detailed patterns. I really liked this work."

Humphrey Clegg
Curator of Australian Art Exhibition
